

Bike Build for Charity

Get ready to have some fun while helping a local charity by building bikes for those in need! Teams will compete in a fun and dynamic program. This flexible and fun bike-building challenge can accommodate individuals of all ages, indoors or outdoors and is great for all group sizes. After completing the challenge, guests will present their finished bikes to the charity of their choosing.

Help a Charity and Build Team Spirit!

The goal is to pump up the spirit of your group with a fun, upbeat and high-energy team challenge that will exercise problem solving skills, leadership, teamwork, and cooperation. Everyone working together to accomplish a task outside of the normal workplace will highlight analogical problem solving techniques that can be carried on throughout work, school and life.

Each team is given instructions, clues and the necessary parts to build their bicycle. Challenges are discovered along the way that must be overcome in order to accomplish their goal – successfully assembling their bike for donation.

Teams will be debriefed afterwards by our staff to talk about what they have learned and how they worked as a team. The group will leave better bonded knowing they have accomplished building a bike from scratch that will be donated to a good cause.

At the conclusion of the event, the bicycles are inspected, and then donated. Presenting the completed bikes to children or charities in need is always a highlight and further bonds the group.

Level of Difficulty

Easy
