

Low Ropes Course

A Low Ropes Course focuses on group dynamics, teamwork, communication, leadership, fellowship and collaboration to achieve a common goal. The fun and seemingly easy challenges take focus and strategizing in order to succeed. The challenges are fun, entertaining, and engaging, and there are many to choose from based on the particular goals, limitations, and location for your group. This is a great way to get your group out of their comfort zone and have fun together while building friendships and camaraderie!

Working Together To Build Team Spirit!

Low ropes involve a series of problem solving elements in which groups must work together to accomplish a goal. These challenges will have your group working physically and mentally to solve a challenge. This high-energy group challenge, designed for all ages and abilities, will bring out community spirit in all of your team members. The day begins with a warm-up, followed by a fun and dynamic program designed to get everyone involved.

Friendly and knowledgeable facilitators will provide guidelines to a series of challenges, but it is up to the team to create a strategy to complete the challenge at hand. Each team will work through a series of team challenges designed to foster cooperation and team bonding.

Our facilitators will keep score, motivate, and make sure each challenge is completed thoroughly. They will offer a debriefing after the program to talk about how the group worked together as a team, and how their experience can relate to work, school, and life. Option to move on to a High Ropes Course afterward to take it to the next level!
